

CONGRATULATIONS

Dean & Ethel Fisher recently received the "highest achievement in choreography" for their round dance "I Don't Care". Further it has been selected as a "Golden Classic" by Roundalab. This recognition is from the International Association of Round Dance Teachers, Inc.

While Dean & Ethel are square and round dance callers & teachers for 29 years, they also dedicated their talent to creating choreography for several Round Dances; "I Don't Care" was their first round dance for which they wrote the choreography.

The Blue Mountain Promenaders are so proud to say that Dean & Ethel have been our Club callers since 1988 to present. We couldn't be happier for you in receiving this recognition from your peers, and join the square and round dance community in saying "CONGRATULATIONS".
